SUMMARY

I'm a Computer Science student with a strong interest in Big Data, AI, and machine learning. I love building practical projects, exploring new technologies, and finding creative solutions through data. Highly adaptable to any situation and always eager to learn and grow in dynamic environments.

WORK EXPERIENCE

Data Analyst BootCamp   **May 2025 - Present**
- Learning more deeply how to clean , model and visualize data. Diving into more concepts in numpy and pandas especially in DataFrames.
- Will be going more deep into EDA (Exploratory Data Analysis) and getting to know more on Data Gathering, collections, API's, statistics and visualization.

Database management System   **Jan 2025 - Mar 2025**
- Completed NPTEL 8-week certification in Database Management Systems, covering relational models, advanced SQL, normalization, indexing, query optimization, and transaction management.
- Gained hands-on experience with database design and query processing, including ER modeling, relational algebra, concurrency control, and recovery mechanisms using MySQL.

Deloitte Data Analytic Certificate   **Feb 2025**
- To analyze telemetry data of software company into tableau sheet. Learned to analyse data and create a dashboard in Tableau. To draw conclusion and classify data in excel sheet.
- Job stimulation on Data analytics and Forensic technology.

EDUCATION

SRM Institute of Science and Technology   **JULY 2023 - MAY 2027**
University of Engineering and Technology
- Specialization in Big Data Analytics

BenchMark International school   **JAN - 2023**
Located in Tirur, Kerala
- School Education

ADDITIONAL INFORMATION

- **Technical Skills:** Python, Data analysis, Data modelling , Spreadsheets , tableau
- **Languages:** English, Hindi, Malayalam
- **Certifications:** Deloitte Data Analytics, Database Management System (NPTEL), Intro to Data Science(Simplilearn)
- Currently doing a 21.5 hour Data Analyst Bootcamp by 365 Careers in Udemy.
